ONLY ONE IN THE STATE

Some Facts Regarding One of Greensboro's Industries.

A short time ago we mentioned the new brick building erected on Lewis street for the Acme Mill Works. Mr. L. M. Clymer, the ower and proprietor was born on Alamance county near the Guilford county line, part of the home place being in this county. He possesses rare genius in his line—that of machinist.

Mr. Clymer moved to Greensboro about 18 months ago and his first place of business was the Eagle foundry building, which was destroyed by fire last year. Mr. Clymer then moved to Pitts & Bain's lumber mill and secured power from them to run his machinery. He remained there until a few weeks ago when he moved to his new building on Lewis street and he is now better equipped than ever to do first-class work.

He makes a specialty of regrinding and corrugating rolls for roller mills, and repairing roller mill machinery. In addition to this he has lathes, drills and saws for doing general machine shop repair work. Mr. Clymer has handled over five hundred rolls for mills since he has been in business here and not a single one of them has been rejected or sent back on him.

The Acme Mill Works is a valued industry and should be appreciated by Greensboro. It is the only one of the kind in the state and the nearest like concerns are in Baltimore and Columbus.

Mr. Clymer is a good citizen and an upright christian gentleman, one whom any city might be proud to claim as a citizen. We congratulate him on his success in the past, notwithstanding the misfortune in getting burned out, his present splendid prospects for future business and his improved equipment and location.

One great need of the city of Greensboro is more such men as Clymer. In fact all our citizens should be "climbers." A little difference in the spelling you will observe, but you get the idea. Let everybody climb. Look up and go forward.

Joined the Hospital Corps.

Messrs. Clarence Bogart, J. Simpson Schenck, A. H. Staples and Shorter Leftwich returned from Raleigh this morning whither they had gone yesterday to enlist for hospital service. Messrs. Bogart, Schenck, and Staples stood the examination and were duly sworn in as members of the hospital corps of the Seventh Army Corps to serve under the Red Cross. Mr. Leftwich failed to pass the physical examination. The boys expect to be ordered to Jacksonville next week whence they will go to Santiago.

Mr. Melville Troy, the efficient local man of the Daily Record, left this morning to enlist for the same service and will probably be accepted.

The need of more hospital nurses is urgent and the action of the young men is all the more laudable because the chances of distinction are much less than for the men in the ranks.

Recruits to Fort Macon.

Forty recruits for Raleigh's two companies at Fort Macon left today and 40 went from Franklinton. Hackney's contingent did not go. He went and says he wants to get permission to have 109 officers and men. The adjutant general says that out of 540 men ordered to go to the regiment yesterday only 190 went.—Col. Olds Letter.

Miles to the Front.

Major-General Nelson A. Miles passed through this morning in a special car attached to the second section of No. 37 reaching here at seven forty. After considerable dickering with Secretary Alger General Miles has succeeded in getting permission to go to Cuba and was on his way to Charleston, S. C., where he sails for Santiago on the Columbia. General Miles did not have his famous porcelain lined bath tub with him.

Persons troubled with diarrhoea will be interested in the experience of Mr. W. M. Bush, clerk of Hotel Dorrance, Providence, R. I. He says: "For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks completely prostrated me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I fortify myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by C. E. Holton.

AT NOONTIDE TOMORROW.

Sampson and Shafter Jointly Attack Santiago.

LINARES BORROWS OPERATORS.

To Cable Concerning The Surrender All Non-Combatants Ordered The Leave The City.

By Wire to THE TELEGRAM.

Washington, July 8—Sampson and and Shafter have an understanding that at noon tomorrow Sampson shall begin the bombardment of the outer harbor and simultaneously Shafter will attack by land. The armistice was extended until noon on Saturday in order to allow General Linares to cable to his home government with regard to surrender. There has been no firing recently on either side. The American position has been greatly strenghtened during the last few days and the lines are now within 400 yards of the enemy.

Sampson's plan is to bombard the forts, at the mouth of the harbor driving the enemy away from the guns and then land a thousand troops to occupy the forts while launches with grapping irons countermine the entrance to the harbor. Sampson will then enter the harbor and bombard the city in cooperation with Shafters attack. Sampson says he can bombard the city from the sea, a distance of over eight miles.

THE SHIP DESTROYED.

Key West, July 8—According to the reports of the officers the vessel destroyed while trying to run the blockade off Havana was the Spanish trans Atlantic liner Alfonso. She was loaded with ammunition for General Blanco.

WANTS TO SURRENDER.

Washington, July 8—A despatch from Shafter this morning states that he has sent English operators to Santiago at the request of the Spanish general to telegraph to Madrid with regard to the surrender of the city. He reports that all is quiet and the American soldiers are in good spirits.

RELIEF ARRIVES.

Washington, July 8—A despatch received this morning from Playa del Este says the hospital ship Relief has arrived and will proceed immediately to Santiago to care for the wounded.

THE EXODUS.

Caney, via Kingston, Jamaica, July 8—The exodus of non-combatants from Santiago to escape the threatened bombardment by the Americans is an impressive sight. Large numbers of men, women, and children continue streaming into the American lines. On the walls and in prominent places in the city large placards are posted bearing the following order:

"Having received no further word from the Americans and being anxious to save the lives of women and children all non-combatants who cannot carry arms, by order of the authorities, shall, between the hours of five and nine o'clock tomorrow morning, leave the city for Caney by any city gate. No passports will be necessary."

All refugees from the city say that Santiago is greatly in want of food and the suffering is intense.

Mission to Hawaii.

By Wire to THE TELEGRAM.

San Francisco, July 8—Admiral Miller today received instructions to prepare to send to Hawaii a special mission in connection with the annexation of the islands. Final instructions will be given this week. The cruisers Philadelphia and Bennington have been ordered to prepare for sea at once and they have probably been selected to convey the official news of anuexation to Hawaii and will formally raise the American flag in the name of the United States.

This writer has been there more than once and it affords him pleasure to testify to the splendid meals prepared and served there. Mr. Covington, the proprietor knows his business and treats his guests well.

A Deserved Compliment.

The News and Observer of today has the following to say of the company from this place:

Captain Percy Gray's Greensboro company, is recruited to its full quota of men, and is one of the crack companies of the regiment.

This should be gratifying to the friends of the officers and men of the company.

A Daughter's Yearning.

IN MEMORIAM MRS. E. S. SHORTER.

Where is mother? Where, oh where
Is that lovely face so sweet and fair
That lately my fond lips warmly pressed
As I held it close to my loving breast?

Where is mother? I look in vain
Through blinding tears that fall like rain
For a glimpse of the weary angelic face
Whose smile has every where left its trace.

Beautiful smile! That at the last.
When pain was over and sickness past,
Lay like a seal on lip and brow
Wearing an angel's beauty now.

Fain would I take to my stricken heart
The better lesson—of faith apart.
The lesson that teaches all else above
That love is deathless, and God is Love.

Angel mother!—I know, I know,
That where the lillies of Paradise grow,
Thy pure spirit has found its rest,
Happy for aye—on the Savior's breast.

And so I struggle my grief to quell
With this sweet thought—'tis well 'tis well,
The one I was helpless to shield from cold
Is sheltered and safe in the shepard's fold.

—Mrs. A. Hamilton Leftwich.

Spanish Before the War.

Apropos of the announcements that Spanish is taught in some of our leading colleges including the Normal College, we are reminded that Spanish was taught at the University a year or two before the war between the states. Prof. Smith—"Tige"—as the boys call him, taught French, Spanish and German—an innovation not very pleasing to the old conservative members of the faculty at the time.

Prof. Smith is the father of Hon. Hoke Smith.

The first oration in German delivered at the University commencement was by a gentleman from Greensboro and who still lives here.

ON THE VERGE OF REVOLUTION

Santiago News Precipitates a Crisis in Madrid,

SPAIN IS READY FOR PEACE.

Light on the Maine Disaster—Dewey Awaits Merritt—The War News of a Day.

By Cable to THE TELEGRAM.

London, July 8—A despatch from Madrid says the press is exhorting the citizens against internal disturbances. The public is fully informed of the Santiago disaster and much uneasiness is noticeable among party factions. There is great fear of civil strife. Calls have been issued for additional home troops and cavalry batteries. Both are being rapidly augmented and it is believed the government intends to arrest Weyler fearing an attempt to overthrow the throne. The officials of the Spanish embassy here deny any knowledge of peace negotiations.

READY FOR PEACE.

Rome, July 8—The Journal correspondent says that the Spanish ambassador to Italy states that Spain will yield on invitation of the powers to conclude peace.

HULKS OF CERVERA'S SHIPS.

Off Santiago, July 8—Light has been thrown upon the Maine disaster by an examination of the Spanish ships of Cervera's fleet. As has been stated the Spaniards blew up their ships after running them aground. These ships give abundant proof that the Maine was blown up by an external explosion. Experts find that the effects of the explosion on the Spanish vessels is that the plates bulge outward creating great havoc. The same symptoms were absent from the Maine wreck which was caused by an external explosion.

DEWEY AWAITS MERRITT.

Hong Kong, July 8—A despatch from Manila states that Admiral Dewey will await the arrival of General Merritt and additional reinforcements before taking action against Manila. It is stated that the Spaniards are strengthening the defenses and will resist to the utmost.

Survivors at Boston.

By Wire to THE TELEGRAM.

Boston, July 8—The steamer Halifax arrived here this morning with 162 survivors of the La Bourgogne disaster. The revised passenger list shows that of 714 persons aboard the ship only 164 were saved. Thus 550 persons lost their lives.

Congress Adjourned.

By Wire to THE TELEGRAM.

Washington, July 8—The senate agreed to the house resolutions of yesterday. Congress adjourned at two o'clock this afternoon.

Clash in Cabinet.

Madrid, July 7—The Queen Regent presided at the cabinet council today, at which dissension arose between the peace and war parties. Sagasta and Gamazo, Minister of Public Works, contended that it was time to end the war, while the ministers of marine and war wanted to keep up the fight.

Shore-Leave at Tampa.

Of the 25,000 men on the ships, half were allowed ashore at a time. As there were barely 12,500 square feet of shore for them to stand on, they were about as miserable as on the ships. Shore at Port Tampa means a pier, a wharf a hundred feet wide and a mile long. To get a whiff of fresh air the 12,500 men sat on the rail along the wharf. For recreation they bathed in the water under the wharf. For a whole week the wives of army officers at the inn at Port Tampa could not leave the hotel piazza—Collier's Weekly.

A Proper Protest.

A New York illustrated publication of the less reputable class, which last week contained a caricature of Her Majesty Queen Victoria, is being sold at some city news-stands. We should think that the feeling of respect which every man, whether British or not, and whether he honors royalty or not, should pay to a woman whose long life has been spent nobly would be sufficient to prevent newsdealers from offering the publication and people from buying it.—N. Y. Herald.

"Yes" observed a clergyman quoted by the Troy Times, "we have just terminated the greatest revival our church has experienced for many years." "I rejoice to hear it," said his friend. "How many did you add to the fold?" "Oh, we didn't add any," replied the good man; "but we got rid of three."

THE OTHER SIDE.

Negroes Explain Why the Companies Failed to Go.

As the adjutant general predicted, the contingent from Raleigh for the Third Regiment failed to materialize this morning. Many negroes were at the depot to see them depart, but not a man appeared. This afternoon the men got away.

The talk of the negroes about this business is as the buzzing of bees. They say the failure to go is because the men will only serve under their own officers; that they can get no assurance that Hacking, their leader, will be captain; that the governor appointed only political favorites; that he has appointed James H. Young, who is incompetent, colonel; that he did not even want Charles S. L. A. Taylor, of Charlotte, to be a captain; that it is Taylor who has done the drilling of the battalion, aided by his company officers; that there is an undercurrent of feeling against Young and against the Governor, too. These negroes assert that their race is not lacking in courage, though, as has been shown this week, not a few individuals of it have shown such lack. Governor Russell's appointments of officers of the Third Regiment have been openly political. Not the least attempt to deny this has been made. The men are simply being picked here and there so as to see that the various centers of the negro vote were represented. The Adjutant General was notified by P. H. Lybrook that a full company of 109 would be sent from Winston and by V. S. Lusk that a big company would be sent from Asheville, to constitute the regiment.—Col. Olds in Charlotte Observer.

Santiago.

The thirst I had was two miles long
and half a mile 'twas wide,
And red hot desert wastes of sand
were scorching me inside,
And barbed wire and cactus plants
they lifted half my hide—
Of uniform I scarcely had a rag, O!
I wore beside my pelt,
My gun and cartridge belt,
I thought I'd need them both in Santiago.

It was our colonel led us on, our captain shouted "git!"
And as we scrambled upward there
were dozens of us hit,
For down the Mauser blizzard swept
from fort and rifle pit—
Upon that spot our colonel lost his
nag, O!
Yet he ran on before,
An eyeglassed god of war,
Crying, "Follow me, brave boys, to
Santiago!"

We burrowed through the thickets, and the thorns we didn't mind,
The wounded men they cursed because
they had to stay behind—
And when we couldn't see the foe we
still went at him blind—
Chasing him from every crest and
crag, O!
And fifty hours of flight
Went on by day and night,
Before we set a foot in Santiago.

Though Spanish Dons, they did their best to entertain us well;
We bore them back before us, with
ringing cheer and rousing yell;
At last old wig-wag in the sky shook
out his flag to tell:
"Our admiral has Cervera in his
bag, O!
When you give up the ghost,
Your children's sons may boast,
'Our father's father fought at Santiago!'"

—Sydney Reid, in N. Y. Sun.

Blanco's Manifesto.

Havana, July 6.—Captain General Blanco has issued the following manifesto on the subject of the destruction of Admiral Cervara's squadron:

"To the Inhabitants of Cuba: Not always does fortune follow valor. The Spanish squadron commanded by Admiral Cervera has just performed what is probably the greatest act of heroism in the annals of the Spanish navy during the present century. Fighting against an American force of thrice strength, the squadron perished gloriously at the very moment when we thought it saved from the danger which menaced it in Santiago harbor.

"The blow is heavy, but it would be beneath the dignity of the Spanish arms to falter in the defence of our just cause even before this disaster."

FRIDAY, JULY 8, 1898.

OUR FIRST COLONY.

The annexation of Hawaii is not in any sense a surprise. For weeks past it has been a foregone conclusion, though some have hoped that the opposition in the senate would be able to stave off the measure for the present session.

The work however has been done and there is no undoing it. The American people will have to take the islands and the hazards and dangers that go with a departure from the Monroe doctrine and the inauguration of a colonial policy that is not likely to end with the acquisition of Hawaii.

Not the least of the dangers incurred is the complication of the situation when final arrangements are to be made as to Cuba, Porto Rico and the Philippine Islands.

From the first Germany, France and Russia have openly accused us of coveting Spain's colonial possessions. The annexation of Hawaii will be taken, and with a show of reason, as establishing the justice of the charge. The argument that Hawaii was needed as a base of operations against Spain in the Pacific is too puerile to deceive European statesmen. They will easily understand that it is to be a half-way house to the Philippines.

Accordingly this country may expect every possible obstacle to be placed in the way of a settlement with Spain with a consequent increase of irritation at home and abroad, and a possible embroilment with some other power at the end of the pleasing vista.

That we shall annex Porto Rico and Cuba unless the sober sense of the American people is aroused before the time for such a step arrives is practically certain. The imperialists will point out that Spain cannnot pay a suitable indemnity and that we must take in land what cannot be paid in money. The argument is plausible enough on its face and is one that will appeal to the multitude.

Nonetheless is it true that neither is likely to prove a source of revenue for years to come but,on the contrary, will be a positive drain upon this country. We shall be required to maintain law and order in the islands and it will be no easy matter. Hawaii is already controlled by Americans resident on the island. Cuba and Porto Rico have few Americans and it will certainly be many years before they can be Americanized. Meantime they must be governed as our territories now are. And there comes the rub.

When the first glamour of comradeship between insurgents and Americans has vanished—and it is even now vanishing—the inevitable hatred between Saxon and Latin will appear. The leaders in the war for Cuban independence will expect a niche to be found for them in the government,and with some justice. If they are given places they must inevitably prove inefficient because of their ignorance of our methods of government. If they are not provided for they will return to their old trade of starting a revolution with "down with the greedy Yankees" as a rallying cry. And the cry will be catchy enough. Spain can supply data as to the profits of suppressing Cuban insurrections.

In the Philippines the prospect is even less attractive. Aguinaldo, the insurgent leader, is openly hostile to annexation and between him and the powers, with Japan to help, we are likely to have some little trouble.

While all this is going on abroad there are some scores at home that will not be settling themselves nor rendered more easy of settlement by increased taxation, and possible drafts, to maintain an army of 150,000 men and a fleet of forty to fifty battleships, both of which our newborn imperialism will imperatively demand.

"How I Pulled the Stopper" would draw large audiences just now, Senor Cervera.

The war does not seem to be peculiarly injurious to the matrimonial business.

If congress had adjourned about six days earlier it would have been a good thing for its reputation.

Our esteemed contemporary, the Associated Press, seems to have been asleep when Hobson was exchanged.

In the confusion a few thanks might be given Cervera for the very necessary part he took in it. He will hardly get any from home.

The fate of La Bourgogne shows that peace as well as war has its victims. More people lost their lives than have been killed on the American side in the whole war with Spain. And there was scarcely a gleam of heroism to light the hideous shades of cowardice and selfishness that gloom the picture. One man alone stood to his post and died as the soldiers die at Santiago. One woman only rescued! Has such a thing ever happened before since men have sailed the sea in ships?

The colored people of this state can not afford to fail to raise the quota of men expected of them. It is the first time since they have been freemen that an appeal has been made to their patriotism. The young men of the race should recognize that the only man who commands respect is the man of courage. They cannot afford that the race should rest under an imputation of cowardice. Will not such an imputation be just if out of the thousands of able-bodied colored men in this state one regiment cannot be raised? The pay and keep of a soldier is better than nineteenths of the colored people in the state are accustomed to. It requires no pecuniary sacrifice therefore for the average negro to volunteer. Let them be duly warned then that to fail in this matter is to incur the lasting contempt of the state.

Got His Sword.

Capt. Percy Gray of the Greensboro company is minus his sword according to Col. Olds. He writes the Charlotte Observer:

Adjutant Robert L. Gay and Captain Percy Gray are lamenting the loss of their swords, which, strange to say, were deliberately stolen at the officers ball Tuesday night.

Captain Gray can console himself with the thought that in these days of rapid fire guns swords are largely for ornamental purposes.

Baby's Face.

Dexter, Granville Co., N. C., March 30, 1898.

MRS. JOE PERSON,

Dear Madam—About the last of December there appeared something like heat on our baby's face. On the fourth sunday in January his face and head were filled with running sores and he suffered severely. We were satisfied the dreadful disease was eczema. On the above mentioned day Rev. K. D. Holmes and Mr. Herbert E. Crews recommended to us in the highest terms, Mrs. Joe Person's Remedy. With the great confidence we had in these gentlemen, we proceeded at once to use it. Two months later, the fourth Sunday in March, Rev. Mr. Holmes saw the same child and could scarcely recognize him. The child is seven months old, his face is well, and there are only slight signs of the disease about his head. He is the picture of health and is hearty and strong. We gladly recommend Mrs. Joe Person's Remedy for all forms of eczema, and think that it is the bast blood purifier on the market. With best wishes, I am,

Your friend,
D. N. HUNT.

Blood Brains Money

A sick man can't make money That's because his brain wont work. A horse wont do work unless he is properly fed. Neither will a brain. If the brain is not kept in good condition with pure, rich blood, it wont produce much.

Men who fail, and men who don't, often have what they call "Nervous Prostration." Nine times in ten the nervous trouble is purely secondary. The real sickness is in their digestion and in their blood. If a man keeps his digestion in good order, and keeps his body full of pure, rich blood, he is never going to be very sick.

Johnston's Sarsaparilla is made for people who want to get well and stay well. Sarsaparilla is a simple, "grandmother" remedy, but it cures. It purifies and enriches the blood and sends it tingling to every part of the body. That is the way it cures all ailments of the brain and nerves—cures insomnia—cures dyspepsia, rheumatism, scrofula, and every other blood disease. It clears the complexion, plumps out the cheeks, and brings back the sparkle to lifeless eyes.

One Dollar is the price, and One thousand Dollars is the health-giving value of every Quart Bottle of **Johnston's Sarsaparilla**

What It Means.

When we advertise that we will guarantee Dr. King's New Discovery, Electric Bitters, Bucklen's Arnica Salve, or Dr. King's New Life Pills, it means that we are authorized by the proprietors to sell these remedies on a positive guarantee, that if purchaser is not satisfied with results, we will refund the purchase price. These medicines have been sold on this guarantee for many years and there sould be no more conclusive evidence of their great merit. Ask about them and give them a trial. Sold at C. E. As to High Point News.

Yesterday's High Point correspondence was carried by this place and returned ou No. 35 last night. It was in no sense the fault of our correspondent there, but of the railway mail agent on No. 36 yesterday. We are always anxious to furnish our High Point friends the local news of their city as well as the war news and always regret it when we fail to get it. It seldom happens, however, and we trust it may not be so again.

Many Thanks.

The Telegram force were the recipients this morning of a basket of delicious ripe peaches, through the thoughtful kindness of Register of Deeds Kirkman. Accept our grateful thanks, Brother, and may you always be supplied with the good things of life.
